Jami Jambusarwala & Associates

OUR PROCESS

Clients First

Our guiding principle has always been a client-first approach. We believe no space, no matter how stunningly designed, will do justice if it does not truly represent what our clients are all about. That's why our design process begins with and continues to nurture multiple interactions with them.

Our design acumen lies in our ability to understand our client's vision and functional requirements. We translate that tacit understanding into a reality that they can revel in for years to come. Perhaps that is why many of JJ&A's clients are now third-generation!

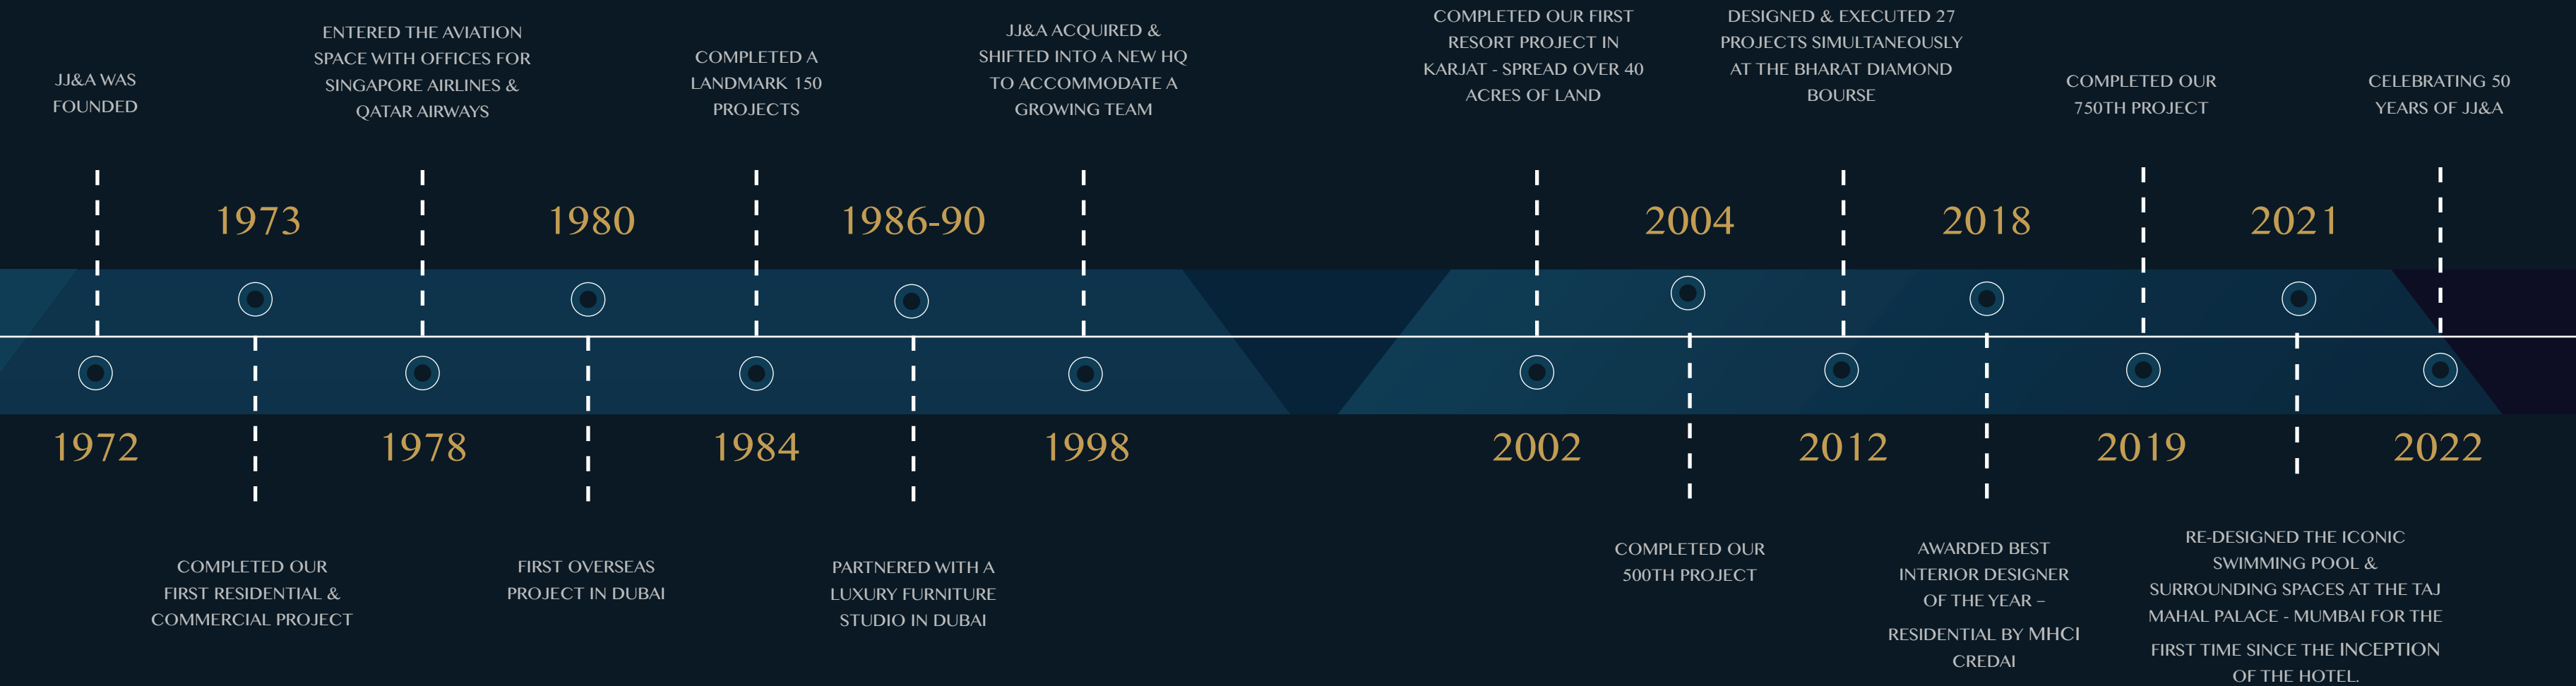

WHY US

The JJ&A Advantage

A reputation for masterful planning coupled with our eye for elegance and detail, has resulted in our award-winning interior and exterior work standing the test of time. Our promise is your space built on a foundation of quality, style, and functionality; one that seamlessly blends with its context and truly represents you.

CELEBRATING 50 YEARS OF LEGACY

With a vast repertoire of client spaces, from villas, offices, and private residences to showrooms and holiday resorts, we pride ourselves in leaving our mark in all design spheres. With half a century of iconic design behind us, our dynamic second generation looks forward to an inspired global future.
